

LL330 Series

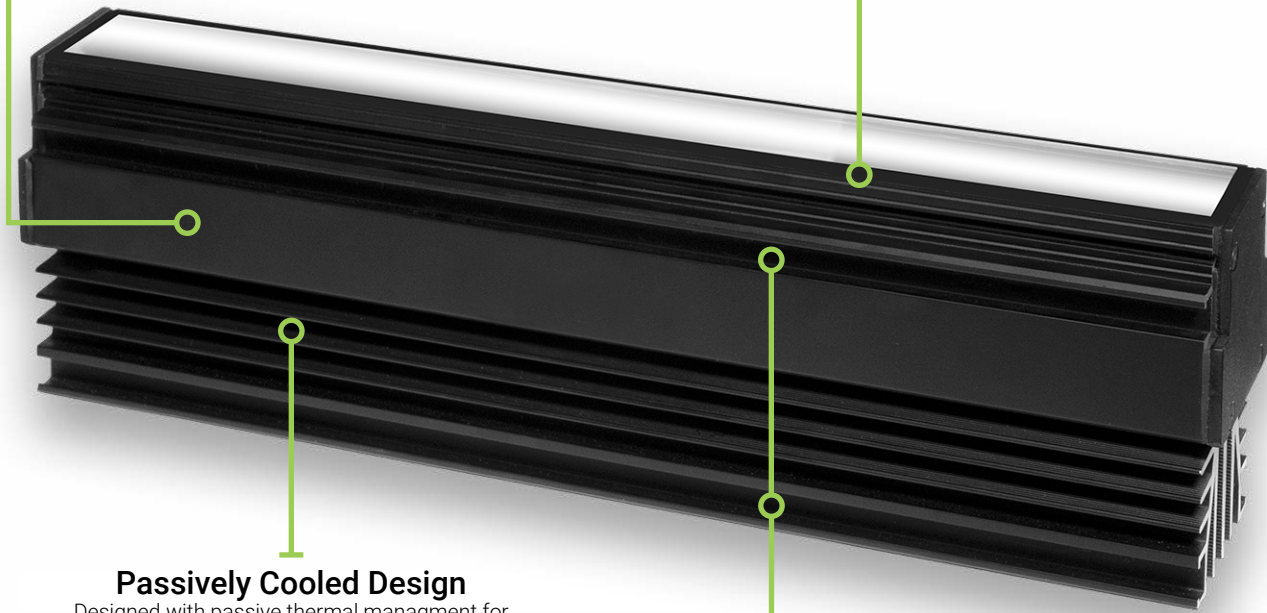

Sealed High Intensity Line Lights

Product Datasheet

Scalable and End-to-End Stackable Housing
Built with extrusion-based aluminum construction, the LL330 scales linearly in 150mm increments up to 1m. For lengths exceeding 1m, its end-to-end stackable design allows for longer configurations.

Dust and Debris Protected
Engineered to be completely sealed from dust and debris for reliable performance in harsh environments

Passively Cooled Design
Designed with passive thermal management for reliable, minimal maintenance operation

M6 Mounting Channels
Equipped with two M6 mounting channels on each side, allowing for highly adjustable and stable positioning

LL330 Series Description

The LL330 Series provides a sealed high intensity line light solution for demanding industrial environments. Engineered to withstand harsh conditions, these line lights are completely protected from dust and debris, ensuring reliable performance where other lights fail. Their passive thermal management eliminates the need for active cooling fans, contributing to low-maintenance, long-term operation.

The LL330 is available with an embedded control option, designed for continuous operation and housed within the configured light head. With options for converging or collimating optics, this series is suited for a variety of application needs. The LL330 is ideal for sheetrock, lumber, ceramics, stone, and other industries utilizing line scan imaging where airborne particulate, dust, and debris are concerns.

-  **High Intensity**
-  **Dust Proof**
-  **Passively Cooled**
-  **Scalable Design**
-  **1-3 Week BTO Lead Times**

General Information

General Specifications

Category	Specification	Detail			
Optical	Available Wavelengths	White, 455nm, 625nm			
	Available Lensing	D (Converging; Optimal WD at 25 mm) and G (Collimating)			
	Available Light Conditioning	None			
Electrical	Power Consumption Info	See Power Requirements on Page 7			
	Cable/Connector Info	C1 Option: 80" -0/+6" Long Cable (2 m -0/+150 mm), 105 °C Rated, Foil Shield w/ Drain EC Option: Male Bulkhead Connector, M12, 4-pos, T-Coded			
Mechanical	Sizing Info	Standard	Length	6.29" (159.8 mm) to 41.72" (1059.8 mm)	See Page 6 for More Details
		Width	2.70" (68.6 mm)		
		Height	3.66"(92.9 mm)		
	Weight Info (Standard)	~3.18 lbs (1442 g) per 300 mm unit			
	Mounting Info	M6 Mounting Nut Channel			
	Material Info	Anodized Aluminum Housing, Acrylic Window, Nickel Plated Brass Bulkhead Connector and Strain Relief, Steel Black Oxide and Zinc Plated Steel Fasteners, Neoprene Gasket, Rubberized Epoxy			
Thermal	Operating Case Temperatures	25 °C to 70 °C			
	Operating Ambient Temperatures	0 °C to 35 °C			
Certification	Compliance	CE, RoHS, IEC 62471			
	IP Rating	IP67			
	Lumen Maintenance - White Only	L70 (50,000 Hours)

Lead Times

Build-to-Order products ship within one to three weeks.

Online Configurator

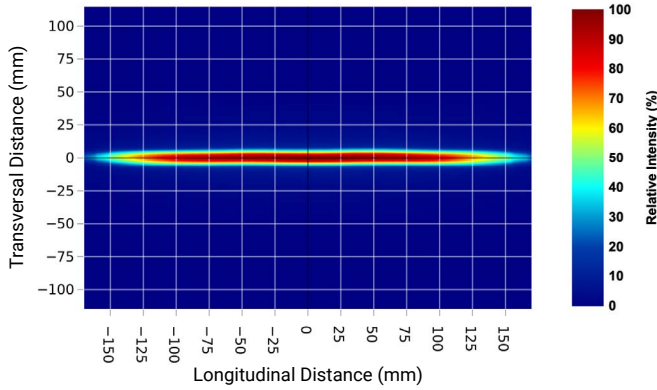

Need a build-to-order custom lighting solution in 3 weeks or less? Advanced Illumination's online configurator helps you tailor our LL330 Series to your specific needs. For a guided configuration, [visit our online configurator](#).

Optical Information

Intensity Characteristics

Intensity Distribution Image at 50 mm Working Distance

Intensity distribution sample image was taken with a 12-inch white LL330 unit with a G lens.

Illuminance vs Working Distance

Illuminance data was collected using a 12-inch white LL330 unit.

Line Width

Uniformity

Line Width vs Working Distance

Line width data was collected using a 12-inch white LL330 unit.

Longitudinal Intensity Distribution Profile at 50 mm Working Distance

Longitudinal intensity distribution data was collected using a 12-inch white LL330 unit with a D lens.

Spectral Distribution Profiles

Spectral Distribution Profiles Coming Soon

Disclaimer: The measurements provided above are for approximations only and may vary depending on the method of measurement and the specific configuration being measured.

Photobiological Risk Factors

Group	Description	Affected Wavelengths
Group 1	No Photobiological hazard under normal behavioral limitations	455 nm, 625 nm
Group 2	Does not pose a hazard due to aversion response to bright light or thermal discomfort	White

Advanced Illumination's lighting products have been tested and classified to IEC standards by accredited testing services. For more information on photobiological risk factors, please view the following PDF: <https://www.advancedillumination.com/wp-content/uploads/2019/04/IEC-040119.pdf>

Cleaning Guidelines

To clean our light's optics, it is best to only clean when necessary. Dusting is always the first step in cleaning your optics. Wiping a dusty optic is like cleaning it with sandpaper. So always dust with a canned air duster or compressed and filtered air before wiping any optic. If the dusted optic has no visible stains after you dust it, then remember: "If it's not dirty, don't clean it." Avoid wiping optics when possible.

If dusting did not clean the lens or the lens has stains, use only de-ionized water and mild dish soap with a low lint cloth designed for optics to avoid damage to the optic by any harsh chemicals.

Polarizers, beam splitters and collimated films should never be wiped with any type of cloth or solvent, only use the air dusting method to clean these types of optics.

The aluminum housing can be wiped down when dusting is not a sufficient means to thoroughly clean.

Mechanical Information

Installation Drawings

Sizing Information

Part Number	Length (Inches)		Length (Millimeters)	
	Unit	Window	Unit	Window
LL330X-0150	6.29	5.92	159.8	150.3
LL330X-0300	12.20	11.82	309.8	300.3
LL330X-0450	18.10	17.73	459.8	450.3
LL330X-0600	24.01	23.63	609.8	600.3
LL330X-0750	29.91	29.54	759.8	750.3
LL330X-0900	35.82	35.44	909.8	900.3
LL330X-1050	41.72	41.35	1059.8	1050.3

Note: The LL330 Line Light Series is end-to-end stackable for line lengths longer than 1 m.

Electrical Information

Power Requirements

Current Required for Power Supply Sizing

Wavelengths	Configured w/ Embedded Controller (EC)	Configured w/ External Controller (C1)
White, 455 nm and 625 nm	1.5A per 150mm Unit	1.5A per 150mm Unit

Note: All Advanced Illumination lights and controllers are nominally powered by 24V DC unless otherwise noted. Strobe overdriving with controller based models may require more current and voltage overhead. The values above do not include background current draw from the controller (~100 mA total).

Control Options

Controller Image	Controller Details	Connector Image
	<p>DCS Single Output Controller - Compatible with C1 Configurations PN: DCS-100E</p> <p>The DCS-100E is a compact, din-rail mounted general-purpose external controller with one C1 output connector, wired with three channels. Capable of providing single channel control or multi-channel control for RGB compatible lights.</p> <p>Output Power: 90 W Max Continuous, 540 W Max Pulsed (Overdrive Strobe) Output Current: 4.5A Max Continuous, 15 A Max Pulsed I/Os: 3 External Trigger Inputs Interface: 10/100 Ethernet with Software and browser-based GUIs. SDKs are also available.</p> <p>For more information about our DCS-100E, please visit the controller product page.</p>	
	<p>DCS Triple Output Controller - Compatible with C1 Configurations PN: DCS-103E</p> <p>The DCS-103E is a din-rail mounted general-purpose multi-light controller with three C1 output connectors. Capable of driving three lights in sync or asynchronously.</p> <p>Output Power: 30 W Max Continuous / Output, 180 W Max Pulsed / Output Output Current: 1.5A Max Continuous / Output, 5 A Max Pulsed / Output I/Os: 3 External Trigger Inputs Interface: 10/100 Ethernet with Software and browser-based GUIs. SDKs are also available.</p> <p>For more information about our DCS-103E, please visit the controller product page.</p>	
	<p>Embedded Controller - Continuous Only - EC Configurations PN: N/A</p> <p>The EC is an embedded controller engineered for continuous-only operation with the configured light head.</p> <p>I/O: 0 V - 10 V (10% to 100% intensity) Analog Dimming Input Interface: Bulkhead Connector (M12 4-pin T-Coded Male)</p>

Embedded Control Option Wiring Information

M12 Bulkhead Connector Pinout Functions and Optional Cable Flying Lead Functions

Pin (M12)	Wire Color (Optional Cable)	EC Functions	M12 Pinout
1	BROWN	24V DC	 <p>5-Position Male Bulkhead Connector</p>
2	WHITE	0-10V Analog Control	
3	BLUE	DC GND	
PE	BLACK	N/A	

The functions above are only applicable when ordering an EC power configuration.

Accessories

Advanced Illumination offers a variety of accessories designed to pair with our lighting and control products. Below you will find a table of accessories which are compatible with many configurations of the LL330 series.

Category	Accessory Image	Accessory Detail
Power Supply		<p>24 Volt DC Power Supply PN: PS24-TL</p> <p>This convenient power source is a universal AC input switching power supply with a regulated output DC current. The power supply comes with an LED Power Indicator, tinned leads marked Positive (+) and Negative (-) and 2 WAGO connectors for simplified assembly.</p> <p>For more information about our 24 Volt DC Power Supply, please visit this webpage.</p>
		<p>Embedded Controller Bulkhead Connector Cable - EC Configuration PN: LC2-M12T-4-FX and LC5-M12T-4-FX</p> <p>This cable connects directly to the bulkhead connector on any EC configured LL330 with it's M12, 4-pos, T-Coded, female connector on one end and four flying leads on it's opposite end. The cable comes in two sizes; LC2-M12T-4-FX at 2m in length and LC5-M12T-4-FX at 5m in length. Please note this is purchased separately.</p> <p>For wiring information on this cable, please see the funtion chart above on this page.</p>
Extension Cable		<p>DCS-100E/103E Extension Cable, Single Light Power Cable - C1 Configuration PN: LC-XX-S</p> <p>This extension cable was designed for applications requiring power cables longer than the standard 2 meters provided with Ai lights. This single light cable features a single male and single female 7 pin locking connector (C1) and can be purchased in 3 - 15 meter lengths.</p> <p>For more information about our DCS-100E/103E Extension Cable, Single Output, please visit this webpage.</p>
		<p>DCS-100E/103E Extension Cable, Dual Light Power Cable - C1 Configuration PN: LC-XX-Y</p> <p>This extension cable was designed for applications requiring two identical lights to be powered through a single controller. These Y cables feature a single male and dual female 7 pin locking connectors (C1) and can be purchased in 3 - 15 meter lengths. See attached spec sheet for compatible light configuration.</p> <p>For more information about our DCS-100E/103E Extension Cable, Split Output, please visit this webpage.</p>

Additional Information

Warranty

Every Advanced illumination, Inc. (Ai) product is thoroughly inspected and tested before leaving the factory. Products are warranted to be free of defects in workmanship and materials for a period of FIVE YEARS from the original date of purchase. Should a defect develop during this period, customers may return the complete product, freight prepaid, to one of Ai's distributors or to the Ai factory. All product warranty returns require a Return Merchandise Authorization (RMA) number which is obtained from Customer Service. The RMA number must be clearly marked on the outside of the package. Ai will inspect the unit, and if a defect is found will, at our option, repair or replace the product without charge. Ai disclaims liability for any implied warranties, including implied warranties of "merchantability" and "fitness for a specific purpose." For products under warranty that have since been discontinued, Ai will make an effort to replace with equivalent parts; for circumstances that do not allow for equivalent replacement, Ai reserves the right to repair or replace these products with an updated version. Ai cannot be held responsible for the unauthorized or inappropriate use of its products. Any unauthorized repair or modifications will result in a voided warranty. No Liability for Consequential Damages: In no event shall Ai be liable for any consequential, special, incidental, or indirect damages of any kind arising from the sale or use of the products.

Compliance

Our lighting products are designed and tested to meet CE, RoHS, and IEC standards. As a global ISO 9001 certified company, we understand the importance of compliance and perform accelerated testing on every product before shipment. For more information on our compliance standards, please see our compliancy documentation here: <https://www.advancedillumination.com/services/compliance-statements/>

Electromagnetic Compatibility

This product was tested and complies with the regulatory requirements and limits for electromagnetic compatibility (EMC) as stated in the product specifications. These requirements and limits are designed to provide reasonable protection against harmful interference only when the product is operated in its intended industrial electromagnetic environment. To minimize the potential for electromagnetic interference or unacceptable performance degradation, install and use this product in strict accordance with the instructions in the product documentation.

Customer Service

For information on existing orders, or to make an order adjustment, contact us Monday through Friday 8:00 am to 5:00 pm ET or send an email to orders@advancedillumination.com.
